Annual Report  
of the  
Medical Officer of Health  
to the  
Rural District Council of Brilles

situate in the County of Warwick  
for the year  
1925.

Mr. Chairman & Gentlemen,

I have now the honour of presenting to you my  
annual report on the vital statistics and sanitary  
circumstances of the District.

The Minister Annual Report has sent instructions that  
this report has to be a of the report, and I have tried to  
carry out those Medical Officer of Health

The District is to the in the undulating lands  
between the Rural District Council of Brilles Cotswolds  
on the west, situate in the County of Warwick tion of  
Warwickshire. The for the year statute acres, of which  
37 are inland waters. 1925. are 24 parishes in the District  
and the Registrar General has estimated that the population  
at the middle of 1925 was 3,653, an increase of 46 since the  
census population of 1921.

Vital Statistics of the District

Birth Rate

The number of births registered as belonging to the  
District, during the year was 83, of which 45 were males and  
38 were females, and equal to an Annual Birth Rate of 15.0  
per 1,000 of the population as compared with 17.3 per 1,000  
last year and 15.8 in 1923.

Four of the births were those of illegitimate children

Death Rate

1912

Annual Report

of the  
Medical Officer of Health  
to the

Rural District Council of Brailes

situate in the County of Warwick

for the year

1925.

Mr. Chairman & Gentlemen,

I have now the honour of presenting to you my  
Annual Report on the vital statistics and sanitary  
circumstances of the District.

The Ministry of Health have sent instructions that  
this report has to be a survey report, and I have tried to  
carry out these instructions.

The District is situated in the undulating lands  
between the Edgehills on the east and the North Cotswolds  
on the west, and forms the extreme southern portion of  
Warwickshire. The area is 45,988 statute acres, of which  
47 are inland waters. There are 24 parishes in the District  
and the Registrar General has estimated that the population  
at the middle of 1925 was 5,653, an increase of 46 since the  
census population of 1921.

Vital Statistics of the District

Birth Rate

The number of births registered as belonging to the  
District, during the year was 85, of which 45 were males and  
40 were females, and equal to an Annual Birth Rate of 15.0  
per 1,000 of the population as compared with 17.3 per 1,000  
last year and 15.8 in 1923.

Four of the births were those of illegitimate children.

Death Rate

The corrected number of deaths of "residents"

Annual Report  
of the  
Medical Officer of Health  
to the

Rural District Council of Warwick  
situated in the County of Warwick

for the year

1925.

Mr. Chairman & Gentlemen,

I have now the honour of presenting to you my

Annual Report on the vital statistics and sanitary

circumstances of the District.

The Ministry of Health have sent instructions that

this report has to be a survey report, and I have tried to

carry out these instructions.

The District is situated in the Warwickshire

between the Edgworthia on the east and the North Cotswolds

on the west, and forms the extreme southern portion of

Warwickshire. The area is 45,988 statute acres, of which

47 are inland waters. There are 24 parishes in the District

and the Registrar General has estimated that the population

at the middle of 1925 was 2,675, an increase of 46 since the

current population of 1921.

Vital Statistics of the District

Birth Rate

The number of births registered as belonging to the

District, during the year was 85, of which 45 were males and

40 were females, and equal to an Annual Birth Rate of 15.0

per 1,000 of the population as compared with 15.5 per 1,000

last year and 15.8 in 1923.

Four of the births were those of illegitimate children

Death Rate

The corrected number of deaths of "residents"

was 86, of whom 41 were males and 45 were females, and equal to an Annual Death Rate of 15.2 per 1,000 of the population as against 14.5 per 1,000 last year and 12.5 in 1923.

### Infant Mortality

Eight deaths of infants under a year old were reported. These are equal to an Infant Mortality of 94 calculated per 1,000 births. Four of these deaths were due to premature birth, two to pneumonia and influenza, one to convulsions and one to gastritis. Last year the Infant Mortality was 50, and the average for the last five years has been 60 per 1,000 births.

### Death Rate from Zymotic Diseases.

One death from Enteric Fever is equal to an Annual Death Rate from Zymotic Diseases of 0.17 per 1,000 of the population.

### Scarlet Fever

Four cases of Scarlet Fever were notified during the year, representing 3 distinct outbreaks of the disease in the District. During May one case occurred at Brailles in a young girl. The patient was removed to the Isolation Hospital at Shipston. In August one patient developed the disease at Ilmington. This patient was nursed at home. In September two cases appeared in one house at Stourton, the infection was most probably acquired outside this District.

### Erysipelas

Five cases of Erysipelas were notified all in different parts of the District, all of the facial type, all the patients recovered.

was 86, of whom 41 were males and 45 were females, and equal to an Annual Death Rate of 15.3 per 1,000 of the population as against 14.5 per 1,000 last year and 12.5 in 1925.

#### Infant Mortality

Eight deaths of infants under a year old were reported. These are equal to an Infant Mortality of 94 calculated per 1,000 births. Four of these deaths were due to prematurity, two to pneumonia and influenza, one to convulsions and one to gastroenteritis. Last year the Infant Mortality was 50, and the average for the last five years has been 60 per 1,000 births.

#### Death Rate from Typhoid Illnesses

One death from Enteric Fever is equal to an Annual Death Rate from Typhoid Illnesses of 0.17 per 1,000 of the population.

#### Scarlet Fever

Four cases of Scarlet Fever were notified during the year, representing 3 distinct outbreaks of the disease in the District. During May one case occurred at Brillon in a young girl. The patient was removed to the Isolation Hospital at Shipston. In August one patient developed the disease at Lillingston. This patient was nursed at home. In September two cases appeared in one house at Spouton. The infection was most probably acquired outside this District.

#### Erysipelas

Five cases of Erysipelas were notified all in different parts of the District, all of the facial type, all the patients recovered.

Pneumonia

Three cases of pneumonia were notified at different times in different parts of the District. One fatal case was recorded.

Diphtheria

No case has been notified during the year.

Tuberculosis

At the beginning of the year there were eleven persons suffering from Pulmonary and ten from other forms of Tuberculosis. Four notifications of Pulmonary and one of another form of Tuberculosis were received, while four persons all suffering from Pulmonary Tuberculosis died. / Eleven persons suffering from Pulmonary and the same number from other forms of Tuberculosis at the end of the year.

Summary of Nursing Arrangements, etc.available for the District.

The Joint Isolation Hospital at Shipston-on-Stour is very centrally situated for this District, and is kept ready for the reception of cases of Scarlet Fever. There are also two huts near the hospital which are kept ready for the Isolation of a case of Small Pox at short notice. The Badger Hospital at Shipston has 16 beds and is available for general hospital cases and also takes maternity cases from this District. This department is becoming increasingly popular.

There are also voluntary Nursing Associations in practically the whole District which undertakes maternity cases and home nursing.

Bacteriological examinations of sputum are made at the Laboratories at Birmingham University, free of

Pneumonia

Three cases of pneumonia were notified at different times in different parts of the District. One fatal case

was recorded.

Diphtheria

No case has been notified during the year.

Tuberculosis

At the beginning of the year there were eleven persons suffering from pulmonary and ten from other forms of

Tuberculosis. Four notifications of pulmonary and one of

another form of Tuberculosis were received, while four

persons all suffering from pulmonary Tuberculosis died. There were

persons suffering from pulmonary and the same number from

other forms of Tuberculosis at the end of the year.

Digitized by the Internet Archive  
in 2017 with funding from  
Wellcome Library

The Joint Isolation Hospital at Shippton-on-Avon is very centrally situated for this District, and is kept ready for the reception of cases of Hoarse Fever. There are also two flats near the hospital which are kept ready for the isolation of a case of Small Pox at short notice.

The Badger Hospital at Shippton has 10 beds and is available for general hospital cases and also takes maternity cases from this District. This department is becoming increasingly

popular.

There are also voluntary Nursing Associations in practically the whole District which undertake maternity cases and home nursing.

Bacteriological examinations of specimens are made

at the Laboratories at Birmingham University, free of

charge under the County Council Scheme.

A supply of Diphtheria Antitoxin is kept by the Council at Shipston with suitable syringes so as to be immediately available in any part of the District. A supply of Anti-tetanic serum is also kept at the Badger Hospital, which is available as required in the District.

All sections of the Public Health Amendment Act 1890 available for Rural Districts have been adopted. The Council have also adopted with the consent of the Minister of Health, Section 3 of the Public Health (Buildings in Streets) Act 1888. This Order is Cited as the Brilles (Urban Powers) Order 1923, and came into operation on July 23rd, 1923.

The Buildings Bye Laws which came into operation in the District on June 15th, 1923 have proved quite useful in the District.

#### Sanitary Administration

In the tabular statement of the work of the Sanitary Inspector furnished under Article 20 (16) of the General Order 1910 it will be seen that he has made 468 inspections and observations and has sent out 158 informal notices, and only 12 formal notices have been issued by the order of the Council. All the nuisances found have been abated and none were outstanding at the end of the year.

#### Slaughter Houses

There are now five slaughter houses registered in the District. These are all satisfactory, and have been inspected periodically.

charge under the County Council Scheme.

A supply of Diphtheria Antitoxin is kept by the Council at Shipston with suitable supplies as are to be immediately available in any part of the District. A supply of Anti-tetanic serum is also kept at the Bagdog Hospital, which is available as required in the District.

All sections of the Public Health Amendment Act 1901 available for Rural Districts have been adopted. The Council have also adapted with the consent of the Minister of Health, Section 5 of the Public Health (Buildings in Streets) Act 1888. This Order is cited as the Rules (Urban Powers) Order 1925, and came into operation on July 25th, 1925.

The Buildings Bye Laws which came into operation in the District on June 15th, 1925 have proved quite useful in the District.

#### Sanitary Administration

In the annual statement of the work of the Sanitary Inspector furnished under Article 20 (16) of the General Order 1910 it will be seen that he has made 408 inspections and observations and has sent out 155 informal notices, and only 12 formal notices have been issued by the order of the Council. All the nuisances found have been abated and none were outstanding at the end of the year.

#### Sluiceway Houses

There are now five sluiceway houses registered in the District. These are all satisfactory, and have been inspected periodically.

Department in the Rural Sanitary District of Berlin.

Bakehouses

There are 15 Bakehouses in the District. They are all fairly well kept and two informal notices with respect to whitewashing have been complied with.

Dairies & Cowsheds

There are now 45 Dairies and Cowsheds on the Register. 31 of these are wholesale producers and 14 are retailers. One dairy is producing Class A Milk. Most of the milk exported from the District is sent to the Creameries at Moreton-in-marsh and forwarded from there to London.

Disinfection of Houses

Eight houses have been disinfected by the Sanitary Inspector personally, after infectious diseases. Formalin being chiefly used.

No sample of water has been sent for analysis during the year.

Factory & Workshops Act

There are now 71 Workshops on the register. They are all small ones. No notice has been received from H.M. Inspector during the year. I am not aware of any outworkers now in the District.

The Sanitary Inspector in his report has given details of the various water supplies in the District, and the work that has been done on them during the year. At Brailes, a new pump has been placed on what was previously an open dip well, and the well is now properly protected.

At Henington, an additional supply for this village has been obtained from the water mains which supply Shipston-on-Stour.

At Little Compton. Owing to this village being situated in the Thames valley the Thames Conservators have

Examination

There are 15 specimens in the lot. They are all fairly well kept and the original notes with respect to each specimen have been retained.

Examination of Specimens

There are now 15 specimens in the lot. They are all fairly well kept and the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained.

Examination of Specimens

Right notes have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained.

Examination of Specimens

There are now 15 specimens in the lot. They are all fairly well kept and the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained.

The original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained.

At Hamilton, the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained. The specimens are all fairly well kept and the original notes with respect to each specimen have been retained.

complained that sewage was passing into the stream which eventually joins the Evenlode. The matter has been considered by the Council, and a septic tank has been erected at the outlet of one of the sewers. There are three principal sewers entering the stream, and if the tank now built proves satisfactory, it is proposed to build others of a similar nature. A long length of the brook has been cleaned out.

#### Public Health Staff

Consists of myself as Medical Officer and the Sanitary Inspector, who also acts as Sanitary Surveyor. There has been no change during the year.

#### Housing

No new houses under a Council Scheme have been erected during the year. The 68 houses already erected by the Council have been fully occupied during the year. Several have been redecorated and repaired.

Two new houses have been erected by private enterprise.

Four new houses at Brailes and four at Whatcote are now under contemplation by the Council.

I am sure that more new houses are still needed in the District.

A considerable number of old houses have been improved, the details of which and how they have been dealt with are given in the Appendix. There are still a number of poor old houses in the District, which are inhabited for want of better houses.

And in conclusion, Gentlemen, please allow me to thank you all and also the officials of the Council for all the kindness shown to me during the year.

I am, Mr. Chairman & Gentlemen,  
Your obedient servant,  
George Findlay, M.A., M.B.  
Medical Officer of Health.

Brailes,  
July 7th, 1926.

completed that stage was pending and the  
eventually joined the Ministry.  
by the Council, and a reply was given to the  
effect of one of the members.  
entering the room, and if the same was still there  
satisfactory. It is proposed to make some of a similar  
nature. A large number of the cases have been cleared up.

MINISTERIAL BUSINESS

Consists of a list of business to be  
Ministry Inspector, who also acts as Secretary.  
There has been no change during the year.

GENERAL

No new business has been received since  
started during the year. The 60 cases already started  
the Council have been fully completed during the year.  
Several have been suggested and received.  
The new business has been received in the year.  
There has been no change in the year.  
Under general list of the Council.  
I am sure that the new business will be received in the year.

MINISTERIAL BUSINESS

A considerable number of old cases have been  
received. The details of the cases are given in the Appendix.  
The new business has been received in the year.  
The new business has been received in the year.

District of Gwent

There are fairly well kept and there are in the district  
at wholesale produce and is satisfactory.

The milk leaving the district is collected by firms  
the Wiltshire Dairy Co. and the Farmers Dairy Supply Co. as

Wotton-in-March

One dairy in the district is worked by Mr. Hume, (last)  
Compton for the production of Class A milk.

Slaughter Houses

Five Slaughter Houses are registered in the District, and these are periodically inspected and are fairly well kept.

The Public Health (Meat) Regulations have been of use in the District the slaughtering of pigs by cottagers and others and also cases of slaughtering of animals due to accidents, etc. being reported.

Bakehouses

The Bakehouses are well kept and it is only necessary to notify occupiers when anything is required.

Workshops

There are the same as last year and are chiefly of a domestic nature and have been fairly well kept.

I wish again to thank all the members of the Council for the kindness shown and help given during the year, and I shall always be pleased to hear of any matter to which any member of the Council considers my attention should be directed, and will endeavour to give it immediate attention and discharge any duties connected therewith in such a manner as to give as far as possible satisfaction to the Council.

Your obedient servant,

E. R. Gander,

Sanitary Inspector & Surveyor.

Blanchester Houses

Five Blanchester Houses are registered in the District, and these are periodically inspected and the fairly well kept. The Public Health (Houses) Regulations have been of use in the District the slaughtering of pigs by cottagers and others and also cases of slaughtering of animals due to accidents, etc. being reported.

Bakenham

The Bakenham are well kept and it is only necessary to notify occupiers when anything is reported.

Worthington

There are the same as last year and are chiefly of a domestic nature and have been fairly well kept.

I wish again to thank all the members of the Council for the kindness shown and help given during the year, and I shall always be pleased to hear of any matter to which any member of the Council considers my attention should be directed, and will endeavour to give it immediate attention and discharge any duties connected therewith in such a manner as to give as far as possible satisfaction to the Council.

Yours obedient servant,

H. R. GARDNER,

Sanitary Inspector & Surveyor.
